

**Artist statement**

*Robyn Gosbell*

“In this body of work Robyn Gosbell takes us on a journey in her life over the last few years from Kakadu to Italy and even becoming a grandmother”.

It is a testimony to her endless search for ways to express herself and her love for what she does. Robyn is one of the galleries most popular & best selling artists and an excellent investment. Moulton Galleries has been waiting two years to be able to put on another Robyn Gosbell exhibition, they are always a sell out.

**Artist statement**

*Narelle Wildman*

“Acclaimed as Australia’s leading naive artist Narelle Wildman is known world wide for her joyous and colourful depiction of everyday life throughout Australia. This exhibition celebrates each state of her beloved, and so lucky country.

**Artist statement**

*James Boissett*

James Boissett uses a palette of clear rich watercolours to translate his experience and understanding of contemporary life into this vibrant journey through the vitality and light of this lucky country, Australia. We burst into the heartbeat of the bustling city of Sydney ; its commanding buildings, and famous sun-whitened beaches such as Balmoral then to Sydney and Middle Harbours with their ferries and sail boats. In contrast, we are gently drawn to rest in the quietness and ageless peace of the Australian countryside with its deep, earthy tones of glittering light and purpling sunsets. Through his brush we are freed to share with the breath of joyful life and calming tranquility. No wonder his works are sought by collectors in Australian and overseas private and corporate collections.

**ROBYN GOSBELL, NARELLE WILDMAN & JAMES BOISSETT.**

You and your friends are cordially invited to an exhibition of three of Australia’s most accomplished artists, all totally different in styles.

They are all highly experienced and have a large following of admirers at Moulton Galleries.
